***Allowable Subject Matter/Reasons for Allowance***

7. Claims 1-11 and 16-41 are allowed.

8. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Carre. Carre teaches a resin composition comprising a thermoplastic resin, a phosphate-based glass, and a phosphoric acid ester stabilizer component. See Carre, pages 3, lines 9-32 and page 3, line 54 through page 5, line 44. Carre differs from the present claims in that Carre does not teach (1) a surface-treated phosphate glass, (2) SO<sub>3</sub> and (4) a specific dripping agent.

9. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including Carre to render the present invention anticipated or obvious to one of ordinary skill in the art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
